

# Blwyddyn 4 – Spring 1 Overview (Home Learning)

## Language, Literacy and Communication

During this half term, in our English lessons we will be focusing on letter writing, this includes informal and formal letters. We will be completing spelling, grammar and handwriting focus tasks. Pupils will also be given a range of reading activities and we encourage them to read for pleasure as much as possible. There will be regular Welsh lessons, recapping on basic conversational Welsh and reading skills. We will also provide Mandarin lessons that are provided by their Mandarin teachers.

## Maths and Numeracy

We are working the place value of numbers. Alongside this we will work on division, fractions, and written methods for addition and subtractions. There will be regular lessons on times tables (up to  $10 \times 10$ ). In addition to this, we will handle data, including learning how to read and understand graphs and tables. We will also be looking at how to use money, adding and subtracting as well as finding change. Prodigy maths is always available for pupils to play and practice their skills.

## Topic

We have decided to save our planned topic 'Sea Legacy' for when it is deemed safe to return to school. Therefore our new mini topic for this half term is 'The Green World'. We will be learning about plants and nature, how plants grow, rainforests and local forests. We will be making sure to cover a variety of skills in humanities, expressive arts, science and technology as well as covering a range of literacy and numeracy skills. I am sure the children will really enjoy learning all about 'The Green world', there is so much to explore here!

## Health and Well-being

The health and well-being of the children is extremely important to us at Esgob Morgan. Therefore, we will be setting daily challenges to support this from mindfulness, yoga and physical challenges to reading, drawing and crazy chopstick challenges! Our aim is to keep children smiling and happy.
